Compare Testing Equipment Features

	Name	Model #	Cost	Features
Speed	10 or 40 Timer	10-40	\$1299.00	Wireless timer measures linear speed from start to finish with digital readout accuracy to 1/1000th of a second. Distance can be set up to 200 yards. Timer equipped with Position Start sensor which allows the athlete to start standing or in 3 point stance.
Agility	Pro Agility Timer	AGS	\$899.00	Wireless digital readout to 1/1000th of a second. Records two times. Time to the right (or left) and back to start [Time 1], and overall time Pro-Agility Run [Time 2].
Reaction	Reaction Timer	RT	\$1099.00	Mode 1: Measures the reaction time including which direction to go [Time 1] and finish a drill at the same point it started [Time 2]. Mode 2: Measures reaction time after athlete hears sound [Time 1] and the time to finish the drill at the same point it started [Time 2]. Light and sound are randomly initiated. Also will time a Pro Agility Run. Wireless with digital readout to 1/1000th of a second.
Agility				
Speed	Ultimate Basic Timer	UB-4	\$999.00	Least expensive Ultimate timer offers great quality speed/agility timer at a low price. The Ultimate Basic Timer can do up to 40 yard linear times as well as dual time agility movements. The Agility mode uses wireless technology. The Speed mode comes with wired start switch. Accurate to 1/1000th of a second. You are getting TWO Timers in ONE unit.
Agility				
Speed	Ultimate Timer II	UB-2	\$1759.00	Will test agility, single run and dual time run speeds. Gives coaches and athletes greater freedom to test sport specific movement from straight line to cross directional patterns such as base running, football routes or hockey drills. Accuracy to 1/1000th of a second, wireless, with digital readout, and Position Start.
Agility				
Power	Jump Station Basic	JSB	\$699.00	Measures the vertical jump. Attaches under a standard basketball rim. Set height to athlete's reach, no math calculation is necessary. Easy to read vanes show athlete's jump to a 1/2".
Power	Jump Station	JS	\$899.00	Measures vertical jump to 1/4" providing the most accurate reading available. Set height to the athlete's reach with no math calculation necessary. Easy to read vanes for instant feedback on height of the jump. Sturdy base with wheels allows movement of unit as needed.
Speed	EPIC Athletic Assessment Package	EAAP	\$1598.00	Includes the Ultimate Basic timer and Jump Station Basic. The timer will measure linear speed of a distance up to 40 yards and also the Pro Agility run. This is the most affordable package. SAVE \$100 by purchasing the package.
Agility				
Power				
Speed	Combine Package	CP	\$2899.00	Includes the 10 - 40 Timer featuring the Position Start, a Pro Agility Timer plus the Jump Station with base. Recommended for High Schools for testing sport teams. SAVE \$200 by purchasing the package.
